

DRG Diagnostics

DRG Instruments GmbH, founded in 1973 by Dr. Geacintov, a subsidiary of DRG Intl. Inc., USA, is a diagnostics manufacturer and distributor with successful operations in over 100 countries. The DRG Group focuses on high technology medical diagnostic areas such as Diabetes Diagnosis, Gynecology, Oncology, Immunology, Infectious Diseases and Toxicology. The highly skilled DRG Staff of medical, clinical, marketing and service specialists are experts at taking innovative technology to market through local territory knowledge and contacts, end-user training, education and cost effective financial and logistical support.

The DRG-Development and Immunoassay production facilities are located in Marburg, Germany, in addition to OEM manufacturing in the USA.

A range of new, occasionally unique ELISA kits has been developed. The DRG ELISA kits compete effectively in both price and performance in all major world diagnostics markets.

To complete the diagnostic reagent line, DRG supplies the clinical laboratory with all necessary equipment, including a semi-automatic microtiterplate processor, the DRG E-LizaMat 3000, and a fully automated system for microtiterplate determinations, the DRG E-LizaMat 8884, which is fully compatible with all microtiterplate ELISA kits due to its open design.

The DRG Group operates through a network of DRG subsidiaries in Germany, Poland, Russia and the Czech Republic, and through distributors in Europe, the Middle East, China, Africa and the Pacific Region. This infrastructure offers access to specialized medical markets in most major countries around the world.

ELISAS that perform DRG

DRG develops and manufactures diagnostic ELISA test kits for use in clinical and research laboratories. The experience of our production and management team guarantees to provide high quality products, competitive prices and excellent customer service.

DRG-NOVUM ELISAS

At the end of 2003 DRG acquired the assets of Novum Diagnostica, Dietzenbach. Novum developed and manufactured a wide range of products to identify and manage infectious diseases.

Now DRG manufactures these ELISAS with the same excellent quality and offers these assays at competitive prices.

Quality

DRG works to DIN EN ISO 9001:2000 and ISO 13485:2003 standard, certified by TÜV Rheinland Product Safety GmbH, an indication of our commitment to customer service, quality control and improved health care.

We participate in a number of quality assessment schemes, which include Instand (Germany) and Dt. Ges. für Klinische Chemie, DGKL (Germany).

DRG products meet the essential requirements of the directive 98/79/EC of 27. October 1998 on in-vitro diagnostic medical devices.

NEW ELISAS

- Chlamydia Ag PCR
- Hepcidin
- LICAM
- Afamin
- CTGF
- Fasciola hepatica
- Treponema Screen
- Coxsackievirus
- DHEA Saliva
- HPV IgG

NEW CLAS

(Chemiluminescence Immunoassays)

- Cortisol
- Testosterone
- Progesterone
- 17 OH-Progesterone
- CA 72-4
- CYFRA 21-I
- Prolactin

Production Facility,
Marburg
